Testimonials

"The testimonials you are about to read reflect the excitement of many companies across Syracuse and Onondaga County that have experienced tremendous growth. We now have a state government that is business friendly, and we have local governments and the private sector working together. This has allowed companies to flourish while several new companies are now on their second and third expansions. This is good news and a situation we are certainly going to continue to promote."

Nicholas J. Pirro
Onondaga County Executive
